## Yichuan No.1 Village Kindergarten in Putuo District

Yichuan No.1 Village Kindergarten in Putuo District, Shanghai was founded in September 1974. It has now developed into two teaching sites, the main campus and the branch campus, both of which have been rated as district-level exemplary kindergartens. Among the full-time teachers, there are 2 senior teachers and 10 first-level teachers, and many others have received honors and awards at the municipal and district levels. The kindergarten adheres to the educational philosophy of "Happy Enlightenment, Healthy Living, Cultivating Temperament, and Autonomous Development". During the process of Shanghai's comprehensive construction of high-quality kindergartens, it has received high praise from municipal experts: "This is a high-quality kindergarten right at the doorstep that operates on a regular basis."

In the activity of participating in the "Dream Transformation Kindergarten" practice in Shanghai, in order to achieve the goal of "small space, multi-function, and great effect" and create a treasure kindergarten in a small corner, the principal led the teachers to comprehensively consider and analyze the matching degree between the environmental characteristics and the learning and development needs of children. In the design, in addition to highlighting scientificity and the utilization of natural resources, the teachers also fully listened to the children's voices, adopting an understanding and empathetic attitude, giving children a sense of freedom, and making the kindergarten a "home during the day" for the children.

The kindergarten highlights a "child-friendly" perspective. The outdoor mixed-age activities break the fixed patterns of each area, blurring the boundaries of space to create infinite possibilities and achieve multi-domain development. After the space sharing and the removal of area labels, the mixed-age model creates a family-like atmosphere full of love and warmth, which has an irreplaceable force in education. We firmly believe that the best childhood for humans is to play freely in nature, where the spirit is nourished and education occurs naturally. Here, our children can fully enjoy the beautiful moments under the 21 Metasequoia trees and do countless fun things in nature.

## Qiyong Kindergarten in Minhang District

Qiyong Kindergarten traces its origins to the speech therapy department affiliated with the Qiyin School, a nine-year compulsory education institution. In 1997, to create a favorable language environment for hearing-impaired children and promote their holistic development, the kindergarten undertook bold reforms by pioneering inclusive education, forming a distinctive model of a "deaf-and-hearing-integrated" kindergarten attached to a deaf school. In 1999, Gong Xueping, Deputy Secretary of the Municipal Party Committee, and Zhou Muyao, Vice Mayor, inspected Qiyin School and highly praised the remarkable achievement of enabling a large number of hearing-impaired children to speak. They proposed establishing a branch campus. In 2001, a modern private kindergarten integrating deaf and hearing children—Qiyong Kindergarten—was founded.

In March 2014, it was accredited as a Shanghai First-Class Kindergarten, and in March 2019, it passed the re-evaluation while being promoted to a Model Kindergarten in Minhang District. In August 2023, it was recognized as a Shanghai Demonstration Kindergarten.

Over its 20-year journey, Qiyong Kindergarten has remained committed to education rooted in love, gradually shaping its vision: "Encounter Love, Encounter Beauty", and its educational philosophy: "Nurturing Love with Love, Everyone Participates, Growing Together." Deepening this philosophy, the kindergarten has enriched its "Qi-Ai" (Inspiring Love) campus culture across three dimensions: Children's Boundless Love; Teachers' Selfless Love; Kindergarten's Limitless Love.

This culture highlights everyone's mission of love, forming the curriculum concept: "Inspiring the Door of Love, Growing Together Through Inclusion," ensuring that love is truly embodied. The kindergarten cultivates "Four-Love Children"—those who love themselves, others, society, and nature—and nurtures "Four-Heart Staff"—educators with an original passion for teaching, sincere care, professional dedication, and genuine service.

As the core institution of the Qibao Town Preschool Education Consortium, Qiyong Kindergarten has become a renowned and highly regarded Shanghai-quality preschool in Minhang District, playing a leading and influential role in the region.
